MAKEPEACE (By Our Correspondent)

Miss Lois Huger was home from Harlequin for the Christmas season.

Miss Rena Mullen was home from Normal School in Calgary during the holidays.

Quite a number from this district attended the New Year's Eve dance in Bassano.

Miss Holmberg left Thursday to spend the holidays at her home in Medicine Hat.

Flu has also been a visitor in the neighborhood. Many residents have spent the last few weeks having the flu or just getting over it.

Miss Yerna Mullen nurse-in-training at the Royal Alexandra Hospital in Edmonton spent Christmas at home.

Mr. Haginson, Government Turkey Inspector inspected the Fred Bulgars flock of Bismarck turkeys and banded a large number of the birds.

Friend will be glad to hear that Betty Macbeth R.C.A.F. (W.D.) has gone east for her training and finds her work very interesting.

The Christmas concert was a success as far as the home folk are concerned. Many outsiders were present and a pleasant evening was enjoyed by all.

Joey Macbeth of Tudor spent the first part of the holidays at the home of Cecil Heford. Cecil returned to Tudor with Joy to spend the latter part of the holidays.

Everyone spent the usual enjoyable Christmas and New Year eating more than they should and suffering from "over stuffed tummies" afterward. But we all felt the same when peace comes and the boys are back home we will sure celebrate it then.

NEW YEARS RESOLUTIONS 1944 STYLE

During the twelve war months of 1943, the United Nations have been victorious on many of the world battlefields. At home conservation campaigns and government regulations have been felt by every citizen.

Youngsters under the supervision of a volunteer helper are having their nap in a Don-Prov. Day Nursery. The government during the year has sponsored training courses for children of working parents. Under the supervision of trained volunteers—many women are provided by Women's Voluntary Services—are doing a job to further the "preparation" to war plans. (2) Conservation of fuel is the concern of every Canadian. When cold weather came over the horizon, the young women in the picture books of the summer came in a plentiful place in the basement. With many householders burning soft coal for the first time this winter a new firing technique has to be learned. (3) Most Canadians are on guard with New Year's resolutions.

GEM NEWS (By Our Correspondent)

With little exception all the boys from the camps, and agricultural centres were home for the holidays.

Appreciation is expressed at the thoughtfulness of the Gem teachers who presented each school student with a very nice gift at Christmas.

Peter Tholsten has now opened his garage, about 300 yards south of the school. People in Gem are glad of the new service offered them.

Arthur Loewen a Gem scholar in the tenth grade was the best scholar in the E.I.D. School Division and received the Governor General Medal.

An engagement was held in a private house. The lucky ones were Aron, C. Hest and Hattie Loewen. As the engagement was announced in the church most of the congregation was surprised, of course there were a few smart ladies who said this we have suspected long ago—how could it be otherwise, as there are always prophets among people.

Joseph Muller Passes Away

Joseph Andrew Muller died at the ripe old age of 93 years at his sons home at Hume. The deceased was born in Pilsen Bohemia in 1850 and worked as a boiler-maker at the Canadian Shocks works. HORRORS OF WAR

One of the lesser horrors of war is that it provides the lesser gifted members of the community with the chance of jumping into positions of official importance. In the social confusion that instates the social confusion somehow contrive to push themselves in official jobs and armed with a little brief authority try to lend it over their able fellows who have made much in peace time in honest competition but who are now in the services of his country.

LOOKING AHEAD

As we stand on the threshold of a new year we are apt to look back over the ground we have just covered and survey the future.

Happenings in the year just past tend to make us think that the war is almost won at least in Europe, but according to those in authority there is a long hard struggle ahead. We all hope that the conclusion of the war will be the end of 1944 but until final victory is ours we cannot afford to relax our efforts, in support of the war effort one little bit.

Suggest Reduction In Gasoline Price

Lower gasoline prices are called for in view of the official announcement by G.R. Cottle, oil controller that the quality of this fuel will be lowered to the quality of officials of the Alberta Motor Association.

Speaking at the annual meeting of the Canadian Automobile Association in Toronto, Mr. Cottle announced that the quality of gasoline would be lowered but it was hoped there would be no reduction in the value of gas ration coupons.

Walter S. Campbell, regional representative of the W.P.T.B. states that there has been no indication of any gasoline price cut. In fact, department officials suggest that the reduction in quality would not be sufficient to warrant any price cut on that account.

The A.M.A. is watching the situation and it is indicated that steps will be taken to secure a price reduction if possible as it is apparent that certain high quality gasoline will not be available to civilian motorists.

Maximum Price For Baling Is \$3.

Maximum price for baling hay is \$3.00 per ton, and under service regulations farmers need not pay more than three dollars. During the basic period the price for baling hay was less—normally about \$2.50 per ton—the lower price must now be maintained. Officials of the War-time Prices and Trade Board state. Numerous complaints have been received from farmers who have been asked from \$4. to \$5. for baling hay, in excess of the maximum price established.

Canned Salmon Is Rationed

Canned Salmon will join the list of rationed commodities on and after January 17th, the ration administration. War-time Prices and Trade Board announces.

Rarely seen in the civilian market during the past two years, now about 200,000 cases of canned salmon are being rationed but to insure fair distribution, under rationing order.

Brown metal coupons will be used to purchase canned salmon, each coupon being good for 1/4 pound of the fish. The canned salmon available will be packed in 1/2, 1/4 and 1 pound tins the board announces.

Mid Week Thought FOR BUSY PEOPLE

DESTINY

A woman named Miss Babe Scott stepped out to an editor in Folsom and handed him a poem which she said her brother had written.

She thought it was good and she wanted to know if the paper might print it. She explained what her brother's name was, his age, his rank in the Army Air Corp and where he was stationed. The city editor looked at the poem.

"When the last long flight is over and the happy landings past, and my altimeter tells me the wreckage comes at last—I'll point her nose to the ceiling and I'll give my crate the gun. I'll open her up and let her zoom to the airport of the sun."

Then I'll meet my fellow pilots now no longer flying low, As I stow my crate in the hangar, on the field where flyers go. Then we'll fly forever with the Almighty flying boys And ride all Heavens airways from Orion to the Cross.

The city editor looked up at Miss Scott. She was smiling. "It's a good thing that I don't believe in 'premonitions,'" she said.

"It's a good poem," we'll print it," the city editor said.

Miss Scott left. The city editor didn't tell her that an hour before her brother was killed in the crash of an army plane on Mt. Hamilton.

How many there are who tread lightly their final destiny. They speak irreverently of God and they joke of Heaven. They think they can soon or glide into Heaven. Oh reader, be warned in time—that Heaven is not gained so many think God has made heaven possible only by FAITH IN JESUS CHRIST. He has shut up every person to his blessed good-for in these last days. God speaks by his Son—Neither is there salvation in any other: for there is none other name under the heaven given among men whereby we must be saved" (Acts 4:12).

"Be it known unto you therefore—that this Man is preached unto you the forgiveness of sin; and by this all that believe are justified from all things" (Acts 13:38, 39).

"How can you treat lightly God's great Love and Christ's great sacrifice on the Cross, when he put away sin by His death, to bring us to God and fit us for heaven? Let us be sober as we think of the gospel of the grace of God and let us gratefully consider our final destiny."

"HE THAT BELIEVETH NOT IN JESUS CHRIST who died and rose from the dead, let him ponder these words spoken by Christ: 'Where I am Father you cannot come' (John 1:3). Then face this stark reality—Hell is the final destiny of the one without faith in Jesus Christ as their personal Saviour."

Reader do you believe in Him or about Him? Do you by simple faith know that His shed blood on the cross has cleansed you from all of your sins and filled you fully for the presence of God in Heaven.

Activity Shown In Fur Market

Western fur dealers describe the present fur market as very healthy with demand keen for most lines although coyote, mink and silver fox are not being picked up as eagerly as at the seasons opening.

The trade has now reached its active auction season and there are sales scheduled for Winnipeg this week-end and next. Except for the slight weakening in mink and fox, already reported here, prices appear to have a very firm basis with a keen demand owing to increased purchasing power.

Receipts in the west have increased, with good supplies moving of coyote, weasel and skunk, although quantities are not as large as at this date a year ago.

Hedge	\$1.00-\$4.00
Coyote	5.00-\$15.00
Muskrat	200-325
Habitat, Jack	600-80
Skunk	2.50-3.00
Weasel	300-3.00

"Difficulties are things that show what men are."

"Fools rush in where angels fear to tread."

"Nothing great was ever achieved without enthusiasm."

cross has cleansed you from all of your sins and filled you fully for the presence of God in Heaven.

WE MUST HOLD THE LINE!

On the home front the battle against inflation is now the most critical of all.

The winning of this battle will contribute much to winning the war.

It will contribute more than all else towards the solution of post-war problems.

The purpose of Price Control is to prevent inflation. Its purpose is to protect and maintain a basic standard of living.

A higher money income will not be of any advantage if, because prices are going up, our money buys less and less.

To win the battle against unemployment in the post-war period, we must first of all win the battle against inflation.

Salaries and wages are a large element, often the largest element, in the cost of everything we buy.

If the Price Ceiling breaks down, in the long run all stand to lose.

We must hold the line against inflation to assure victory in war.

We must hold the line to provide a solid foundation on which, after the war, to build a greater and a better Canada.

In court with attempting to evade military service; 164 with failure to notify change of address while 160 deserters were nabbed; 602 who were without lawful occupation were turned over to the Selective Service Officials.

ANY RAGS TODAY

From the salvage of rubber tires and tubes, worn out hot water bottles etc. Canadians have turned to the salvage of rags. Rags, especially cotton have become a high priority item on the list of Voluntary Scrap Depots throughout the Dominion.

Rags have a hundred and one uses in war and civilian industry. In the picture above an expert rag sorter is playing her part in the nation's war effort. Her job is to divide salvaged rags into the dozens of classifications according to quality size and color.

Funds Available For Package Bee Purchases

Beekeepers attempting to "order early" their package bees for the coming season, have found it difficult in view of the fact that a deposit is required and that the foreign exchange control board has a ruling that U.S. funds could not be forwarded from Canada more than 90 days before shipment of goods. W. G. Le Maistre, provincial apiculturist, advises that a change has now been made. Those who require package bees in U. S. and send a deposit may apply to their bank and obtain the necessary U. S. funds to forward to the breeder.

SANTA NEEDED HELP

My new coat and leggins came out this lovely tree. Mummy says Santa brought them to me. Maybe he did but my grandma helped him make them. I saw her sewing in the

zipper. It's the best Christmas present that I've ever had. Even has a fur collar and cuffs like mommy had on her old coat. I can't wait to know all winter and be warm as toast.
